Epic Link: CNY LoC - FundPark & CN Trustee

Description

As HSBC Express Finance platform, I'd like to create Manual Offer in CNY Currency on AMZ for the seller.

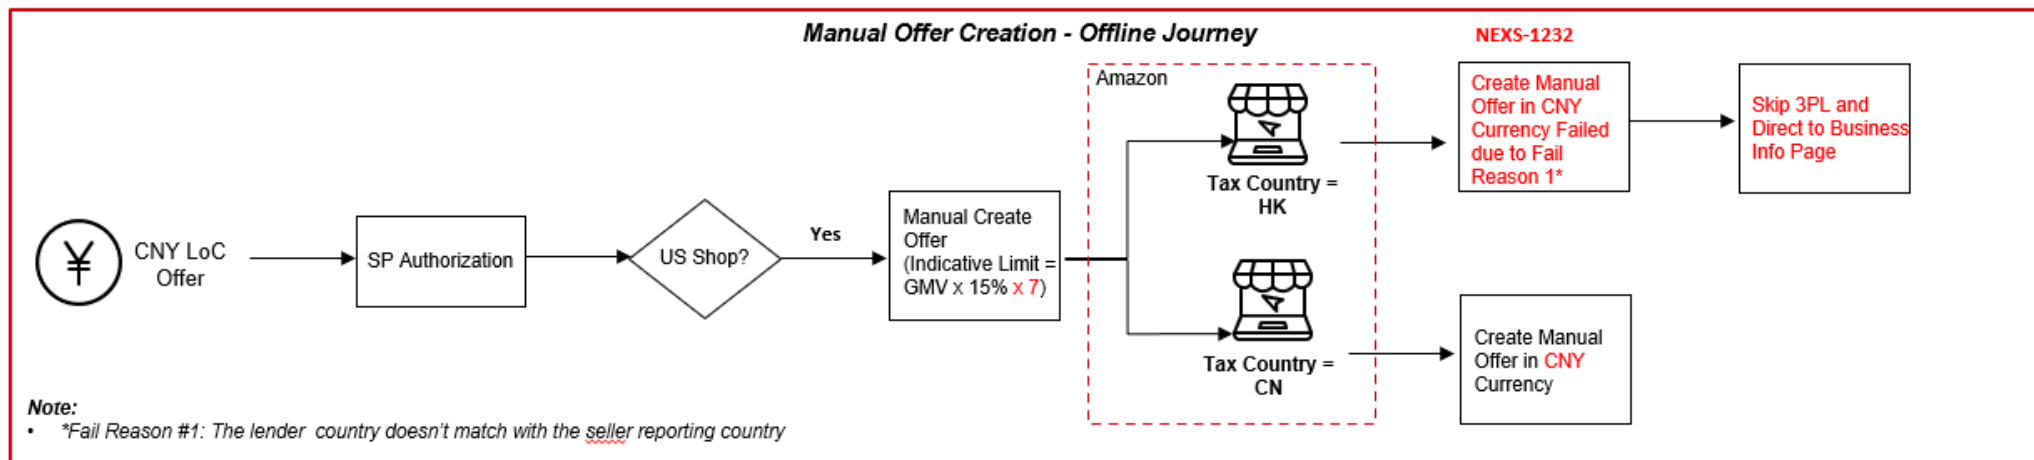

So that the seller is able to proceed the loan application

Pre-condition:

1. The SP API authorisation has been completed
2. The DPU has mark 3PL authorization flag as “Required” from the SP API authorisation

Acceptance Criteria (AC):

Notes: below diagram is to describe the logic for CNY Manual Offer Creation in Offline Journey

AC1 Manual Offer Indicative limit – offline journey

Given the user is on offline journey

And the SP API authorization has been completed

And the seller has US shop

And the “3PL authorization flag” has been marked as “Required” for the Seller ID from the SP API authorization

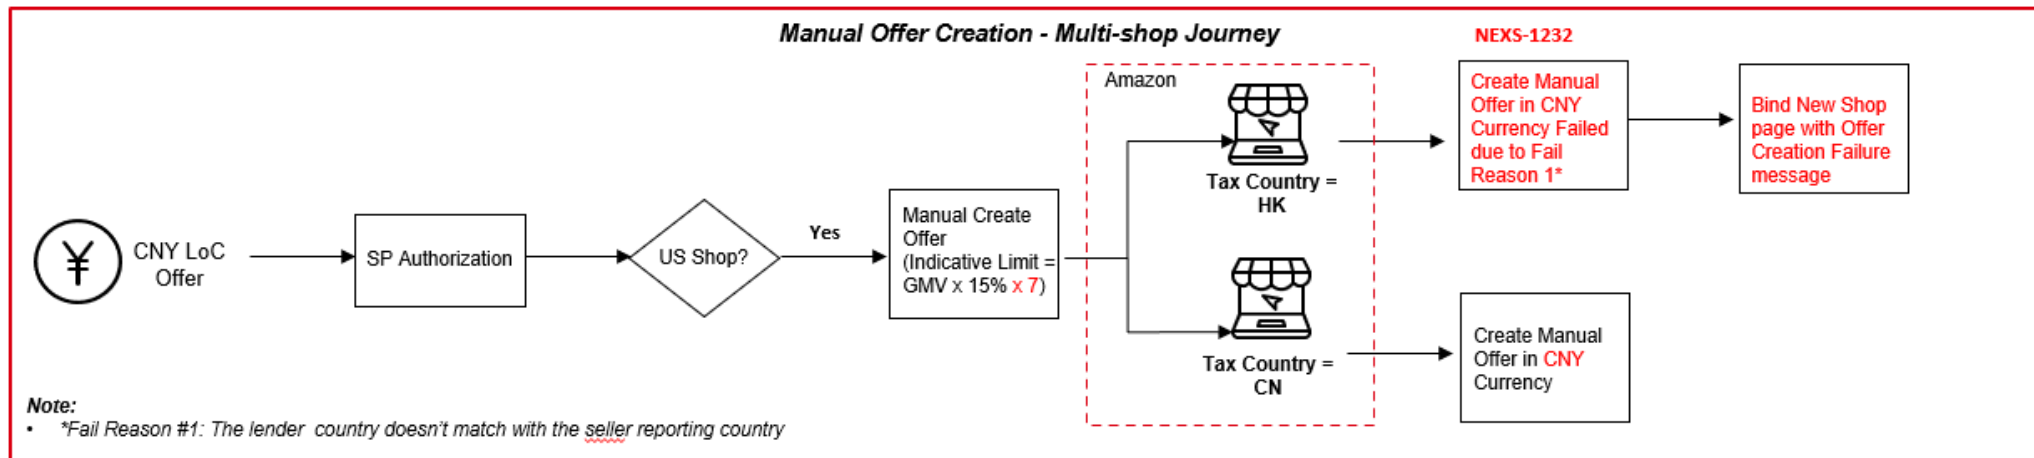

Then DPU calculate the Indicative Limit based on below formula:

Indicative Limit = $GMV \times 15\% \times 7$ (as the GMV of the seller obtained from the SP API authorisation is in USD, so need to convert it into CNY by $\times 7$)

And DPU set the Manual Offer Minimum amount as the Indicative limit

And DPU set the Manual Offer Maximum amount as the Upper Amount of the Tier which the Indicative limit falls into

Notes: below diagram is to describe the logic for CNY Manual Offer Creation in Multi-shop Journey

AC2 Manual Offer Indicative limit – binding new shop

Given the user is binding multi-shop

And the SP API authorization has been completed

And the seller has US shop

And the “3PL authorization flag” has been marked as “Required” for the Seller ID from the SP API authorization

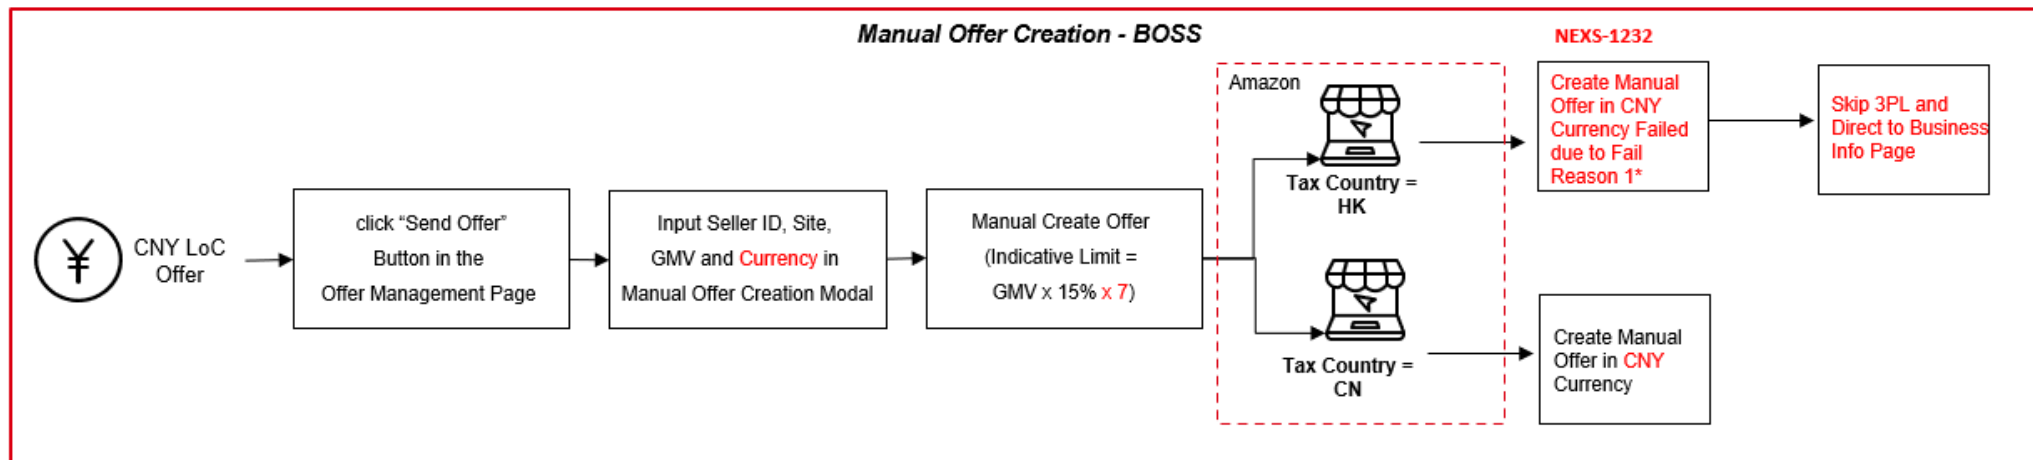

Then DPU calculate the Indicative Limit based on below formula:

Indicative Limit = $GMV \times 15\% \times 7$ (as the GMV of the seller obtained from the SP API authorisation is in USD, so need to convert it into CNY by x 7)

And DPU set the Manual Offer Minimum amount as the Indicative limit

And DPU set the Manual Offer Maximum amount as the Upper Amount of the Tier which the Indicative limit falls into

Notes: below diagram is to describe the logic for CNY Manual Offer Creation in BOSS

AC3 Manual Offer Indicative limit – BOSS

Given the user is on the Manual Offer Manage Page of BOSS

And the User click “Send Offer” Button in the Manual Offer Management Page

And the User input below fields in the Manual Offer Creation Modal popped up

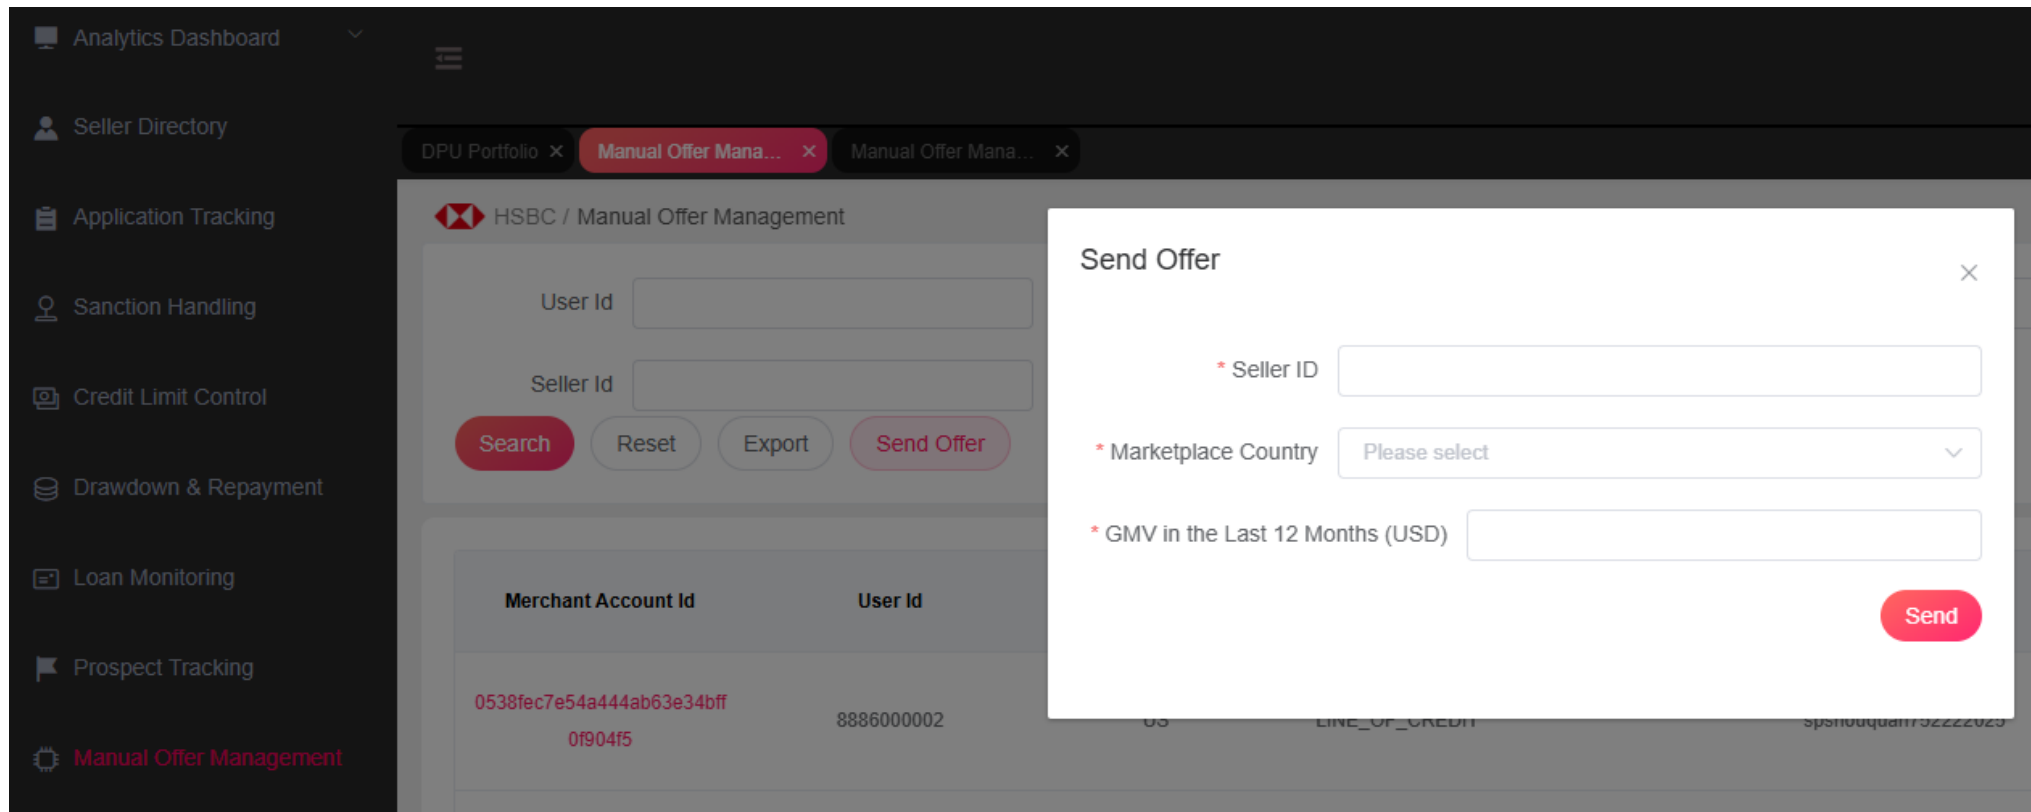

- Seller ID
- Site (drawdown, prefilled US site)
- GMV
- Currency (drawdown with USD, CNY options, prefill CNY for CNY LoC journey. This is an enhancement for BOSS to add a new field)

Then DPU calculate the Indicative Limit based on below formula:

Indicative Limit = $GMV \times 15\% \times 7$ (as the GMV of the seller obtained from the SP API authorisation is in USD, so need to convert it into CNY by $\times 7$)

And DPU set the Manual Offer Minimum amount as the Indicative limit

And DPU set the Manual Offer Maximum amount as the Upper Amount of the Tier which the Indicative limit falls into

AC4 Initiate Manual Offer Creation - Tax Country = CN

Given AC1

Or AC2

Or AC3

And DPU initiate the manual offer creation API to Amazon

When the Tax Country = CN

Then Amazon will allow DPU to create the Manual Offer in CNY for the seller

AC5 Manual Offer Creation Failed - Tax Country = HK - Offline journey

Given AC1

And DPU initiate the manual offer creation API to Amazon

When the Tax Country = HK

Then Amazon will NOT allow DPU to create the Manual Offer in CNY for the seller

Then Create Manual Offer in CNY Currency failed due to Fail Reason #1 (refer to AC1 of NEXS-1232)

And the HSBC Express Finance Platform will mark the 3PL as <NOT Required>

And the User will see SP Authorised Success Page w/o 3PL required

And subsequently, the previous tab will be refreshed to allow user to view the Business Information Page

AC6 Manual Offer Creation Failed - Tax Country = HK - multi-shop journey}}

Given AC2

And DPU initiate the manual offer creation API to Amazon

When the Tax Country = HK

Then Amazon will NOT allow DPU to create the Manual Offer in CNY for the seller

Then Create Manual Offer in CNY Currency failed due to Fail Reason #1 (refer to AC3 of NEXS-1232)

And the User is redirected to Bind New Shop Page with Offer Creation Failure message displayed (refer to AC14 of NEXS-1262)

AC7 Manual Offer Creation Failed - Tax Country = HK - BOSS journey

Given AC3

And DPU initiate the manual offer creation API to Amazon

When the Tax Country = HK

Then Amazon will NOT allow DPU to create the Manual Offer in CNY for the seller

Then Create Manual Offer in CNY Currency failed due to Fail Reason #1 (refer to **AC #?** of NEXS-1232)

(**Remark: Pls Candy include the handling for BOSS Manual Offer Creation Fail Reason #1**)

Remark: below has been updated in production env, make sure we test them in UAT

amazon.offer.minInterest set as 0.08

amazon.offer.maxInterest = 0.15

min.Repayment.Rate = 0.08

max.Repayment.Rate =0.15

clones	NEXS-1068	[Application Abandon] Abandon after l...	Done
--------	----------------------	--	------

Epic Link: CNY LoC - FundPark & CN Trustee

Description

As the Data Processing Unit (DPU), I would like to update the logic when the user abandon the application of increasing limit
And reapply again after the abandon

So that make sure smooth user journey

Pre-Condition:

1. *Seller has activated limit already*
2. *The to be updated logic will be applied for application that changed to abandon due to e-sign expired*

User journeys for user apply to increase limit again after abandon

1. T1/2- Select 70k first, THEN apply for additional limit up to 1.5M
2. T2- Activated 1.5M offer (Underwritten limit>1.5M), THEN apply for >1.5M offer
3. T2- Activated <1.5M offer, add store to increase limit, THEN new underwritten limit > sign limit but still <1.5M
4. T2- Activated <1.5M offer, add store to increase limit, THEN new underwritten limit >1.5M
5. All journeys in T3

Acceptance Criteria (AC):

Common Scenario 1- Abandon on Increasing Limit (e-sign expiry)

Given user had applied to increase additional limit in the past

And FundPark has sent the signing link for e-sign to complete the application

When the user does not sign for 3 months

Then the user will see a yellow reminder message at mission center to show application expired.

And activated limit will be reassigned to existing shop before applying additional limit (refer to ~~NEXS-1035~~)

Common Scenario 2: Start credit assessment for reapplying higher offer again{}

Given the user wants to increase additional limit again after abandoned

When user re-login through HXF website to activate higher limit

Then seller have to click "Start credit assessment" to run credit check again

HSBC Express Finance

Apply to increase your credit limit

Current credit limit: £1,500.000

Maximum credit limit: £1,500.000

Apply to increase your credit limit

Maximum credit limit: £1,500.000

Submit now

And seller needs to wait for limit application, show credit assessment in progress

HSBC Express Finance

Apply to increase your credit limit

Current credit limit: £1,500.000

Maximum credit limit: £1,500.000

Apply to increase your credit limit

Maximum credit limit: £1,500.000

Submit now

When the result is successful, the new underwritten limit will be shown
Then user has to click "**Submit now**" button to start the application

AC3 - [T1/2- Select 70k first, THEN apply for additional limit up to 1.5M]

*Given that*the application on increasing additional limit is changed to cancel due to e-sign expiry

When the user clicks "**Submit now**" to increase credit limit

Then the user will be directed to Business Information page and Connected parties page

And all the information is prefilled from previous submission

When the user completed all the information from these two pages

Then the user will return to landing page

And a message will show to remind user to wait for the result

When the result is ready

Then the message will change to ask the user for pending e-sign and **bind PSP** to fully activate

AC4 - [T2 - Activated 1.5M offer (Underwritten limit>1.5M), THEN apply for >1.5M offer]

Given user underwritten limit is CNY>1.5M and applied for higher limit

And DPU Application status is changed to abandon due to e-sign expiry

When user click "**Submit now**" for increasing limit application

Then the user will see all additional document is prefilled from previous submitted document {}, and they need to review it again for T3 document (refer to NEXS-1170)

And a yellow message will show at the top to remind user to make sure the file is not outdated

When the seller has input all the information required and click "**Next**"

Then the user will return to landing page
And a message will show to remind user to wait for the result
When the result is ready
Then the message will change to ask the user for pending e-sign to fully activate

AC5 - [T2- activated <1.5M offer, add store to increase limit, THEN new underwritten limit >1.5M]

Given that user's activated limit <1.5M
And user apply binding multiple shop to increase the limit to>1.5M
When the application has not be signed over 3 months
Then DPU Application status is changed to abandon due to e-sign expiry in 多店铺流程
When the user clicks "**Submit now**" to start application again
And the user will see all additional document is prefilled from previous submitted document, and they need to review it again for T3 document (refer to NEXS-1170)
And a yellow message will show at the top to remind user to make sure the file is not outdated
When the seller has input all the information required and click "Next"
Then the user will return to landing page
And a message will show to remind user to wait for the result
When the result is ready
Then the message will change to ask the user for pending e-sign to fully activate

AC6- [T2- Activated <1.5M offer, add store to increase limit, THEN new underwritten limit > sign limit but still <1.5M]

Given the user add store in increase limit
When the new underwritten limit is higher than current sign limit
And the limit is still <1.5M
When the user click start credit assessment again after abandon
Then the mission center will remind user for e-sign if the result is successful
And no business information needs to be updated

AC7- Apply additional limit at T3

Given user needs to provide additional document if they apply addition limit on Tier 3

And the user abandoned the application due to e-sign expiry

When the user click submit now to provide document

Then the user will follow the journey of AC4

Description

As HSBC Express Finance, I'd like to show user the Document Review Status for the additional document submitted of the loan application.

So that the user can know the status of the loan application

Pre-condition

1. The user is on [70k-1.5M] or [1.5M-10M] journey

2. The credit assessment has been completed
3. The final Offer Selection Page has been displayed
4. The Underwritten limit > 1.5M
5. The user selects to go for the Underwritten limit > 1.5M in the final Offer Selection Page

Acceptance Criteria (AC):

AC1: Offer Landing Page Document Review Status [70k-1.5M]

Given that the user selects "Go for higher amount" in the Offer Selection Page before Credit Assessment

And the Credit Assessment has been completed

And the Underwritten limit >1.5M

And the user selected the Underwritten limit option > 1.5M in the final Offer Selection Page

And the user submitted the additional documents

When the user lands the Offer Landing Page

Then the user will see the Offer Landing Page Document Review Status

And the message will read:

"Your documents have been submitted for review. We'll notify you by SMS or email once your offer is ready (typically 1-2 working days). "

clones	NEXS-1048	[Application Abandon] - Multi-Shop Ap...	Done
--------	----------------------	--	------

Epic Link: CNY LoC - FundPark & CN Trustee

Description

As the Data Processing Unit (DPU), I would like to update the logic for Application Status abandon for Multi-Shop

So that make sure we follow the contract requirement set by AMZ

And the activated limit can be reassigned

Pre-Condition:

1. *The to be updated logic will be applied for Multi-shop additional credit limit*

Multi-shop Abandon Logic

Unfinished Application (Binding PSP failed)

3PL id expiry

E-sign expiry

Acceptance Criteria (AC):

AC1 - Unfinished Application (already e-sign document, not 1st application) (refer to ~~NEXS-1048~~)

GIVEN Seller has activated limited and want to bind extra shop to increase limit

WHEN Seller PSP binding failed

THEN DPU will send below status update to Amazon

Application Created, the status needs to be changed from submitted to Created

WHEN Seller PSP binding not completed after 60 days (TBC - this logic existed in USD?)

THEN DPU will send below status update to Amazon

1. Application Abandon
2. Put new added SP-API as expired and 3PL Auth Token as expired
3. in shop management, remove this new binded shop

AC2 - 3PL Offer id Expired

GIVEN Seller's 3PL offer ID expired

AND shop data cannot be retrieved

THEN DPU will send below status update to Amazon

1. Application Abandon

2. Put new added SP-API as expired and 3PL Auth Token as expired
3. in shop management, remove this new binded shop

AC3 - E-sign expired

GIVEN seller already activated the offer and pending signatures is required

WHEN the seller did not sign after 3 months

THEN the user needs to start credit assessment again to reactivate the expired offer (refer to NEXS-1250)

AND the SP-API and 3PL Auth Token **are not expired**

AND the shop is not removed in shop management page

Epic Link: Line of Credit (LoC) - CNY - Loan Application

Description

As the Data Processing Unit (DPU), I would like to update Amazon when a repayment is made and certain credit event happened
Pre-condition

1. Seller has outstanding balance

AC1: Partial Repayment Successfully

Given seller has made partial repayment successfully

Then HSBC will update loan to Amazon with the latest o/s

When seller return to AMZ seller center
Then the seller will see the updated outstanding

AC2: Full Repayment Successfully

Given seller has made partial repayment successfully
Then HSBC Repayment Schedule will show "Fully Paid" status on drawdown
And HSBC will update loan to Amazon with the latest o/s
When seller return to AMZ seller center
Then the seller will see the updated outstanding

AC3: Credit event - Overdue (TBC)

Given FundPark post a repayment overdue status to HSBC
Then HSBC Post will update loan data information to Amazon

AC4: Credit event - extend Repayment date for overdue loan (TBC)

Given FundPark update repayment date via API to extend repayment date of an overdue loan
And HSBC will update loan data information to Amazon

Issue Links: **Cloners**

clones	NEXS-1045	[Application Abandon] - 1st Applicati...	Done
--------	----------------------	--	------

Epic Link: CNY LoC - FundPark & CN Trustee

Description

**The Abandon Logic and User Journey for CNY Loc are the same with USD LoC
And is already implemented in ~~NEXS-1045~~**

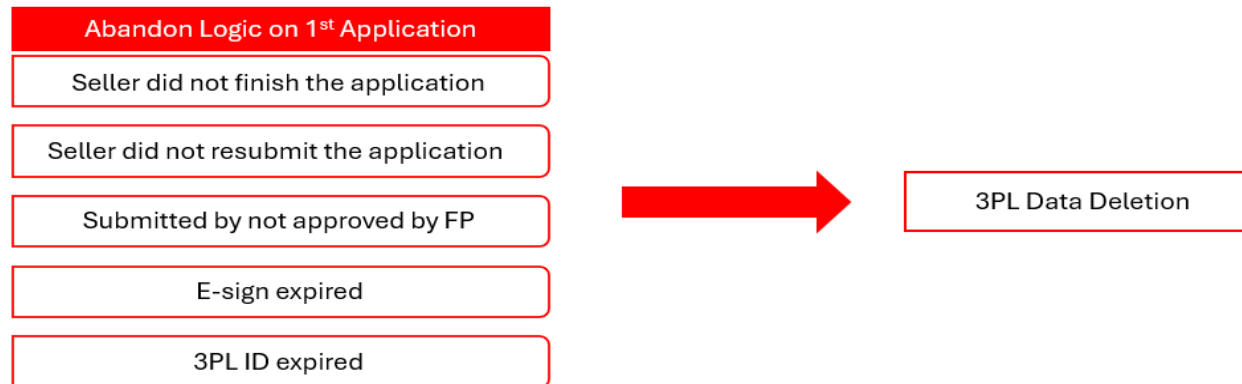

As the Data Processing Unit (DPU), I would like to update the logic for 1st Application Abandon.

So that make sure we follow the contract requirement set by AMZ

And soft delete the application data of the abandoned user

Pre-Condition:

*1: This is the 1st application for the user (exclude multi-shop adding limit, adding limit after 1st application approved in mission center)

Acceptance Criteria (AC):

+Abandon Logic+

AC1: Seller did not finish the application

GIVEN application is still in created status in Amazon

WHEN (Current date – Application created date) > 60 days

And there is no other ongoing application (Requirement needed but TBC if already existed or not)

THEN DPU will mark Application as Abandon and notify Abandon status to AMZ (Scheduled task run at 23:00:00 a daily basis)

AND notify Abandon status to AMZ along with abandon code = UNFINISHED_APPLICATION

AC2: Seller did not Resubmit Application

GIVEN Seller has been requested to resubmit the loan application but do not resubmit it (**Application status = Created**)

WHEN (Current date – Application creation date) > 60 days

And there is no other ongoing application (Requirement needed but TBC if already existed or not)

THEN DPU will mark Application as Abandon and notify Abandon status to AMZ along with abandon code =

SELLER_FAILED_TO_RESUBMIT

(Scheduled task run at 23:00:00 a daily basis)

(For Application status = RETURNED, DPU will update application creation status to AMZ, but will not update the application creation date)

AC3: Submitted but not being approved by FP

GIVEN Lender does not issue a loan to the Seller (**DPU do not receive approved limit from FP**)

WHEN Application is in received status & (Current date – Application submitted date) > 60 days

AND there is not other ongoing application (Requirement needed but TBC if already existed or not)

THEN DPU will mark Application as Abandon and notify Abandon status to AMZ along with abandon code = OTHERS

(Scheduled task run at 23:00:00 a daily basis)

AC4: E-Sign expired

GIVEN Seller has not signed the 1st application

WHEN current date has passed the **offerEndDate** for the application (The **offerEndDate** was returned from FundPark when Credit Offer is approved) (refer to **NEXS-924**)

AND there is no other ongoing application

THEN DPU will mark Application as Abandon and notify Abandon status to AMZ along with abandon code =

SELLER_FAILED_TO_ACCEPT

(Scheduled task run at 23:00:00 a daily basis)

AC5 3PL Offer id Expired

GIVEN Seller Does not Have Activate Limit and there is application in process

WHEN Seller's 3PL offer ID expired

THEN DPU will mark Application as Abandon and notify Abandon status to AMZ along with abandon code =

SELLER_FAILED_TO_ACCEPT (Scheduled task run at 23:00:00 a daily basis

THEN If application is approved or submitted to Lender then DPU will notify Lender about abandon this application

Then Change Amazon Application Status as abandon (DSB Table)

Data Deletion (refer to ~~NEXS-1035~~)

AC6 Delete 3pl Data When Offer Abandoned

Given that the user application triggers any of the abandon logic mentioned above

Then Verified status, if cannot retrieve data

Then Change 3P Auth Token as expired

Then Remove 3PL Seller Performance data only

Then reset 3PL linkage merchant's limit value including indicative limit

Application Abandon Code

Value	Description
NOT_REACHABLE	Seller is not reachable
DOCUMENTS_NOT_PROVIDED	Requested documents were not provided by the seller
UNFINISHED_APPLICATION	Seller did not finish the application
OTHER_APPLICATION_CONFIRMED	Seller confirmed an application other than this one
OTHER_APPLICATION_REJECTED	Other application for this seller was rejected

SELLER_WITHDREW_APPLICATION	Seller withdrew application
SELLER_FAILED_TO_RESUBMIT	Seller failed to resubmit application after request for additional data
SELLER_FAILED_TO_ACCEPT	Seller failed to accept/confirm after application was approved
APPLICATION_INCOMPATIBLE	Seller accepted a different product on seller central that is incompatible with this application
OTHERS	Other reason not specified here

Issue Links:	Cloners
	clones NEXS-816 [Repayment] Overview Page Done

Epic Link: Line of Credit (LoC) - CNY - Loan Application

Description

As the Data Processing Unit, I would like to display a repayment schedule page for the seller to repay and check their repayment status
And I would like to be notified by FundPark about the seller's repayment status

Pre-Condition:

1. User has outstanding drawdown

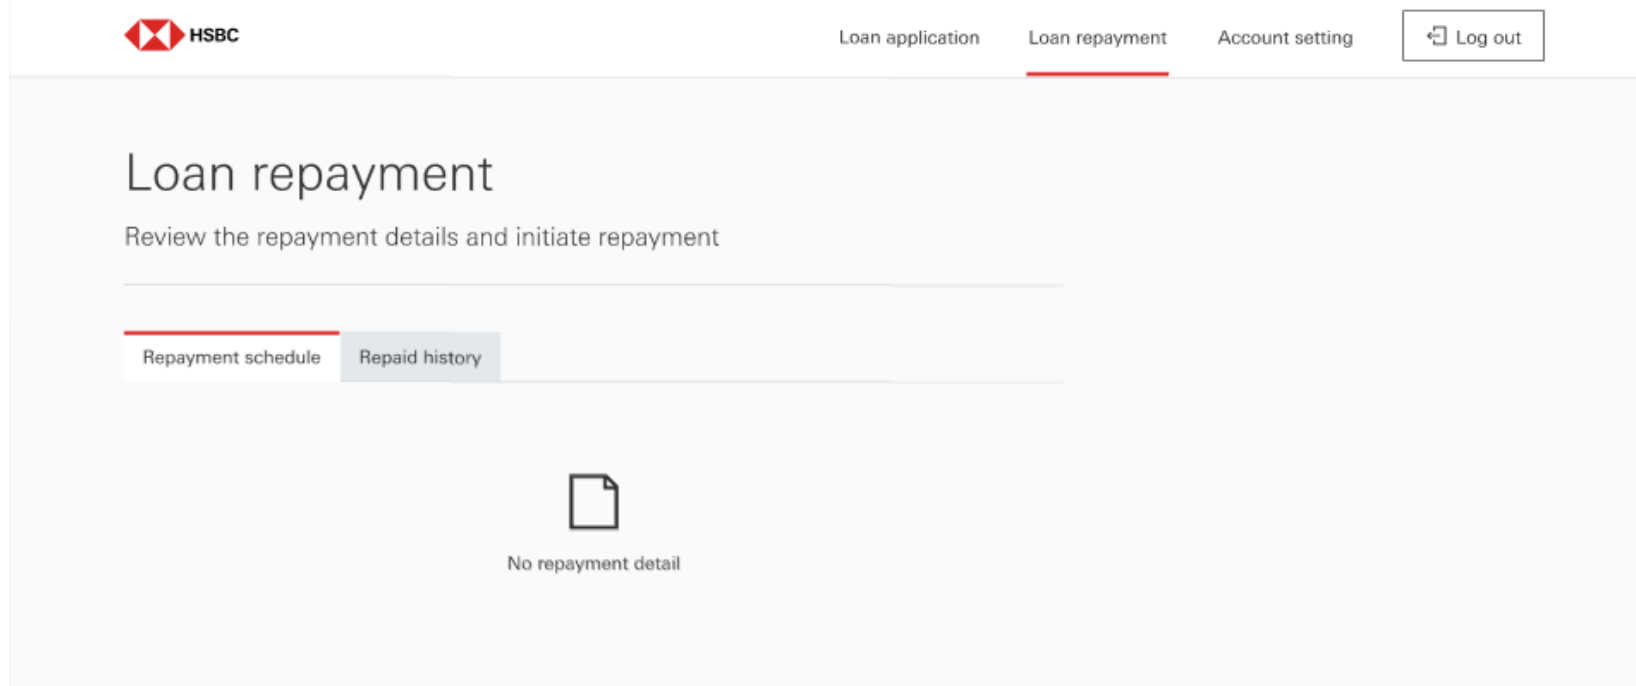

Acceptance Criteria: (Mock Data)

AC1 Show Empty Page in repayment schedule

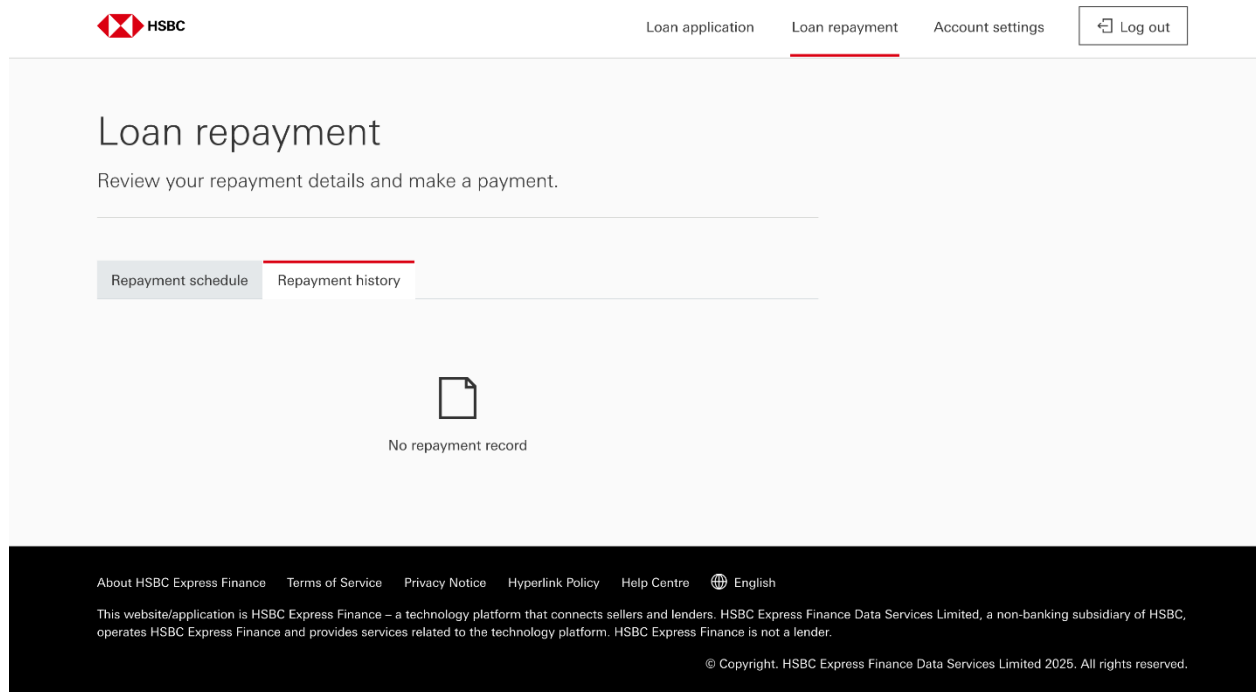

Given that seller don't have any drawdown record

When seller click on the Loan Repayment session

Then display below repayment schedule page with "No Repayment Detail"

Then display below repayment history with "no repayment record"

AC2 Show Repayment Schedule

Given that seller have done a drawdown request

When seller click on the "Repayment Schedule" in landing page

Then display below details for each card

a) Each Drawdown record for this customer will show as a card, and extract below information from DB directly, including all the successful drawdown record

1. Due date

2. Outstanding Balance
3. Disbursement Amount (same as drawdown amount)
4. Currency - for all "CNY" wording in below need to be a variable that refer to drawdown currency
5. Drawdown Date
6. Drawdown Reference Number
7. Drawdown interest Rate
8. Account number
9. Repayment Term (days)
10. display the drawdown status, as below logic and color
 - if current date > repayment date then "Overdue"
 - else if outstanding == 0 then "Repaid"
 - else "Outstanding"
11. Display the "Repay Now" button for each card

Then by default order should be Overdue (Red circle) > Outstanding (Yellow circle) > Repaid (Grey circle)

And for each category based on chronological order (due date from newest to oldest)

Then maximum show 10 card per page

Then by default open first card for each page

Then when user open other cards, the other opened card will not be impacted

AC3 Redirect to relative Lender

Given that seller want to repay the money

When seller click on the "Repay Now"

Then display below notice to seller, after seller click on "I Understand", then redirect seller to FP repayment url

Same as PSP practice, we need to pass the relative user id, product and drawdown id through redirection

AC4: FP Send Webhook notification (refer to ~~NEXS-818~~)

Given that seller is redirected to FP website

And the seller submitted transaction slip in FP website

When FP update status to HSBC, the status include, Start-> Success/Failure

Then FP need to send a webhook notification to HSBC with repayment "start" status in the beginning

And the Success/Failure notification will be sent after FP confirm the repayment

AC5: Show Repayment record in repayment history

Given that Seller submitted repayment slip in FP

When FP provide us a notification

Then display below repayment history

Then Display order should from latest to oldest based on submission date

Issue Links: **Cloners**

is cloned by NEXS-1220 [CNY LoC] - [Loan Monitoring]- Reacti... To Do

Epic Link: Line of Credit (LoC) - CNY - Loan Application

Description

As a seller who is about to drawdown on a loan, i would like to be notified if my drawdown is disabled
So that i can take the appropriate next actions

Pre-condition:

1. Seller has outstanding balance from drawdown of loan funds
2. Seller has an outstanding drawdown overdue and not yet repaid (Current Date is past the Repayment Due Date of Drawdown)
3. Seller's shop status is abnormal and whose SP data is not available
4. Seller's approved credit limit falls below the outstanding balance drawn

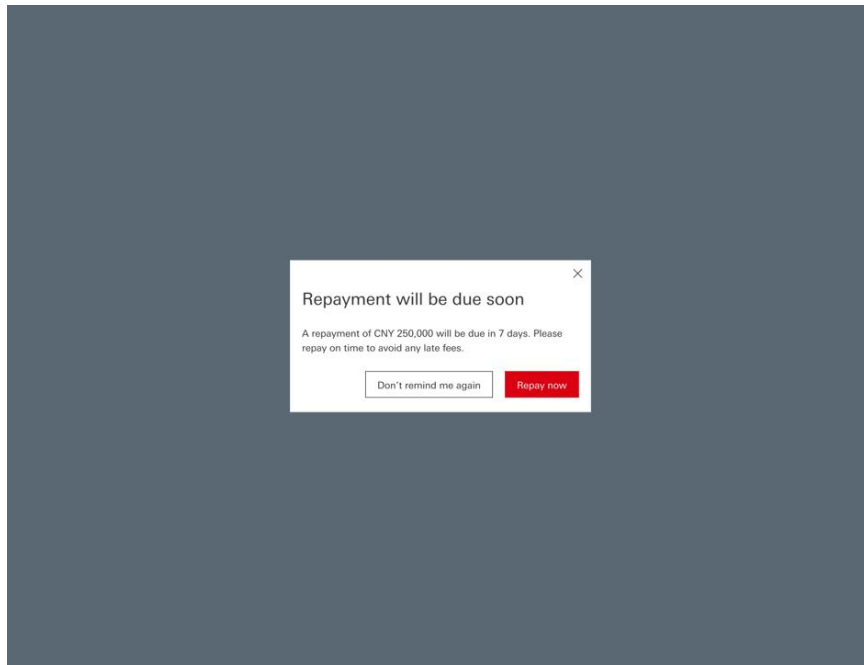

AC1: Show Notification due in 7 days (Repayment Overdue)

Given Pre-condition 1

And seller have repayment due in 7 days

When ** seller log in website

Then ** display below notification, showing CNY<Variable> of outstanding within latest due days.

Then if seller click **repay now**, it needs to redirect user to repayment schedule page

if seller choose **Don't remind me again**, then notification will not show again for current browser for next 6 days and the notification will disappear, such modal will be closed

if seller choose close the modal, then such notification will still appear next time

And in a yellow reminder will appear on Offer Landing page and Repayment Schedule page (refer to figma - repayment)

AC2a: Pop Up Message (Repayment Overdue)

Given Pre-condition 1 & 2

When the seller login Express Finance

Then the seller will see a pop up message to remind them that they have an overdue repayment record

Then the seller will see the following components on the message:

1.A CTA button that directs the seller to the repayment schedule page

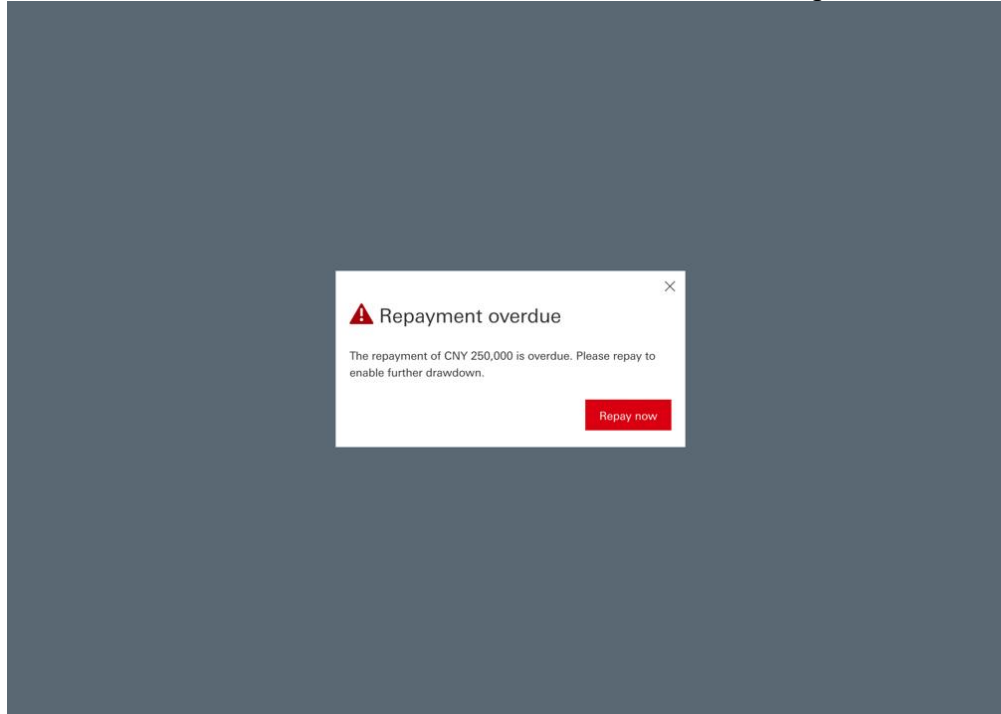

2.An "x" button that closes the pop up when clicked

3.Title: "Repayment Overdue“

4.Message : "Repayment of CNY<Variable> is overdue, please make repayment now

And the <Variable> amount shown on message will be the total of all *overdue* outstanding repayments

And the seller will be able to see the drawdown record status updated to "Overdue"

~~**AC2b: SMS/Email Notification** (Out of scope for this story)~~

~~**When** the current date is past the repayment due date of a drawdown record~~

~~**Then** the user will receive an email and SMS message that reminds them of an outstanding overdue repayment~~

~~**And** message will be shown in the same language to the user based on their platform language~~

~~**And** message will have a URL button that directs the user to the repayment schedule page~~

AC3a: Landing Page Status (Repayment Overdue)

Given Pre-condition 1 & 2

When user visit to Landing Page

Then the user will see that the "Drawdown" button will be dimmed and disabled

And the user will see a message below the drawn limit box to remind them that they have an overdue repayment record

And the message body will be "Repayment of CNY <Variable> is overdue"

And the <Variable> will be total of all outstanding loans to be repaid

Epic Link: CNY LoC - FundPark & CN Trustee

Description

As a loan applicant on HSBC Express Finance, I would like to know if my application has been rejected
So that I may proceed to find alternative means of financing

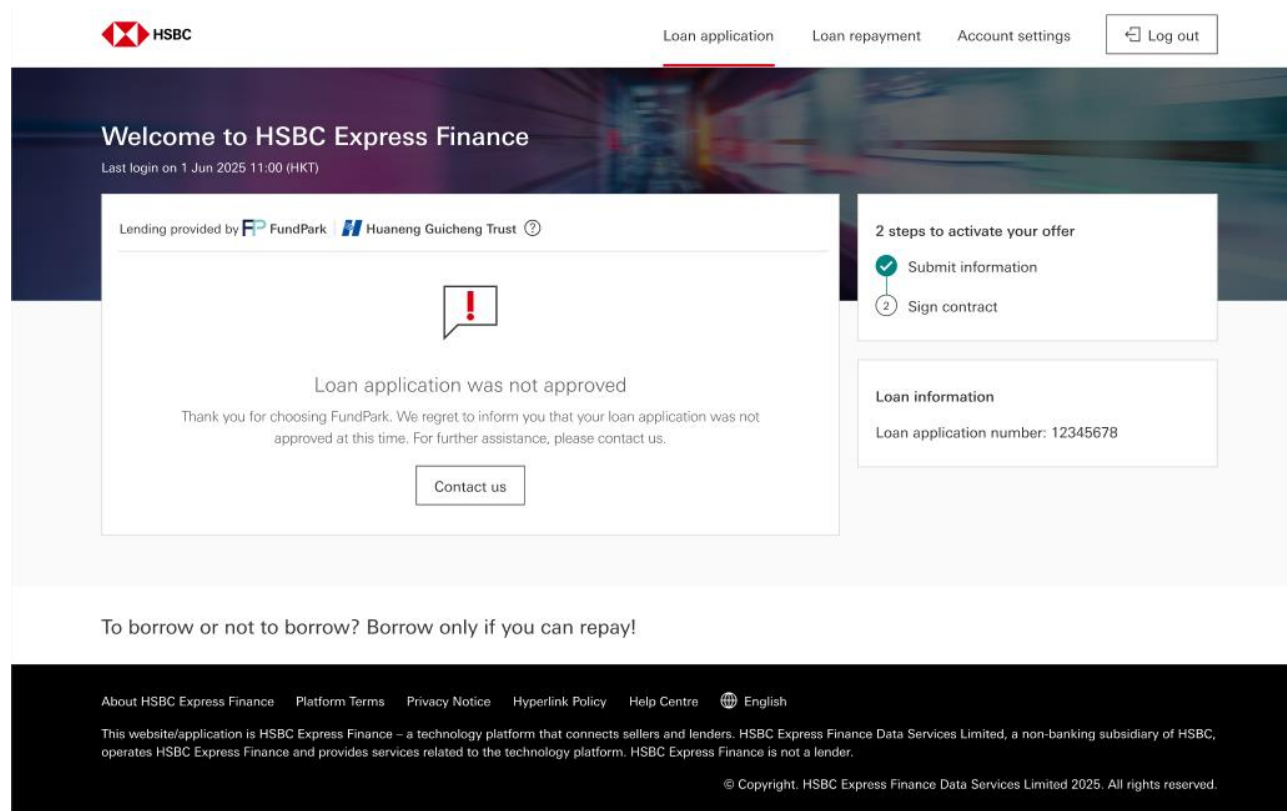

Acceptance Criteria (AC):

AC1: Offer Landing Page if application rejected

GIVEN the offer is rejected by FundPark (Lender rejection or OWS rejection)

WHEN the user is browsing the Offer Landing page

THEN the user will be directed to the Lender Rejection page as below

3 user journey for application rejection

AC 2.1: 70K loan request of [70k-1.5M] journey

GIVEN that the user has submitted application of 70k instant fund,

When the user has input all the drawdown information and landed on pending assessment page (Refer to NEXS-1198)

AND FundPark has rejected the application
THEN the user will be directed to the Lender Rejection page

AC 2.2: select up to 1.5M loan application of [70k-1.5M] journey

GIVEN that the user select loan offer up to CNY1.5M on offer selection page

And the user will land on the pending assessment page for the credit assessment result (Refer to NEXS-1198)

WHEN FundPark rejected the application

THEN the user will be directed to the Lender Rejection page

AC 2.3: [1.5M-10M] journey

GIVEN that the user has input all information on "Business Information" page and "Connected Parties Information" page

AND the user will land on the pending assessment page for the credit assessment result (Refer to NEXS-1198)

WHEN FundPark reject the application

THEN the user will be directed to the Lender Rejection page

Lender Rejection

AC3: Lender rejection - Fraud Rejection journey

Given the user has submit the loan application

And FundPark rejected the offer due to **Fraud** detected

WHEN the user is browsing the Offer Landing page

THEN the user will be directed to the Lender Rejection page

AC3.2: Lender Rejection: Fraud Rejection Logic

GIVEN the Seller submit the application to FundPark

WHEN ** FundPark reject the application with reason include keyword "Fraud" & Current Time - Reject Time > 24 h & there is no other active application

THEN DPU will mark Application as Rejected and notify Rejection status to AMZ along with Application Rejection Category = KYC, and

Application Rejection Code = Fraud
(Scheduled task run at 23:30:00 a daily basis)

AC4: Lender Rejection: Non-fraud Rejection Logic

GIVEN the Seller submit the application to FundPark & Current Time - Reject Time > 24 h & there is no other active application

WHEN FundPark reject the application with reason DO NOT include keyword "Fraud"

THEN DPU will mark Application as Rejected and notify Rejection status to AMZ along with Application Rejection Category = POLICY, and Application Rejection Code = FAILED_APPLICATION_CRITERIA
(Scheduled task run at 23:30:00 a daily basis)

OWS Rejection

AC 5.1: Sanction hit and BOSS user reject the loan application (implemented in AC5 NEXS-1148 in S16)

GIVEN that the OWS RTS screening hit the "MATCH" result

AND the BOSS User confirm to rejects the application on BOSS's Sanctions Screening page.

WHEN the user is browsing the Offer Landing page

THEN the user will be directed to the Lender Rejection page

AC5.2: OWS Rejection Logic

GIVEN ** that the OWS RTS screening hit the "MATCH" result

AND ** the BOSS User confirm to rejects the application on BOSS's Sanctions Screening page.

THEN DPU will mark Application as Rejected and notify Rejection status to AMZ along with Application Rejection Category = KYC, and Application Rejection Code = SANCTION_AND_POLITICAL_PERSON_CHECK_FAILED
(Scheduled task run at 23:30:00 a daily basis)

Data Deletion

AC6: Data deletion when offer rejected

GIVEN that receive reject status from lender

WHEN DPU update reject status to Amazon

THEN Verified status, if cannot retrieve data
THEN Change 3P Auth Token as expired
THEN Remove 3PL Seller Performance data only
THEN reset 3PL linkage merchant's limit value including indicative limit (TBC)

Pending Question:

If CNY LoC offer received lender rejection (non-fraud), will the user be referred to USD LoC? (vice versa)

Lender Rejection		OWS Rejection
Non-fraud Rejection	Fraud Rejection	Sanction Hit and BOSS confirmed
Rejected/Refer to another currency LoC??	Rejected	Rejected

Epic Link:

CNY LoC - FundPark & CN Trustee

Description

As the Express Finance, I want to update the status and loan data with CNY currency to AMZ when a user applies for a CNY offer

So that ensuring a consistent experience across Express Finance and AMZ

Pre-Condition:

1. AMZ has confirmed the API items as outlined in below table.

Acceptance Criteria:

Given the user apply for CNY LoC Offer

When the user go through the journey from application -> drawdown -> repayment

Then the Express Finance should update the status and loan data with CNY currency to AMZ

API Name	Confirmed with AMZ on 28-Jan-2026	Triggering Logic
Creation Application	Confirmed no change from USD for CNY Offer.	1. After the user has signed up 2. After the application is returned by lender for resubmission
Application Received	Confirmed no change from USD for CNY Offer	After the user has submitted the loan application to lender
Approve Application	1) Currency attribute = CNY to AMZ for CNY offer 2) Currency Attribute = USD to AMZ for USD offer	After the user has received the approved offer from lender
Lock AMZ A/C	Confirmed no change to USD for CNY	After the user has completed eSign
Create Credit Approval	1) Currency attribute = CNY to AMZ for CNY offer 2) Currency Attribute = USD to AMZ for USD offer	After the user has completed eSign
Create Loan	1) Currency attribute = CNY to AMZ for CNY offer 2) Currency Attribute = USD to AMZ for USD offer	After the user perform every drawdown
Create Repayment Schedule	Since the repayment is linked to the respective loan, so no need to include currency sent to AMZ	After the user perform every drawdown

Update Credit Approval

- 1) Currency attribute = CNY to AMZ for CNY offer
- 2) Currency Attribute = USD to AMZ for USD offer

When user have existing credit approval,
user's approved limit change

Profilio APIs:

CreateLenderCreditApprovalDataRequest

CreateLenderLoanDataRequest

CreateLenderPortfolioDataRequest

CurrencyCode for 3 APIs will be CNY to AMZ for
CNY offer, USD to AMZ for USD offer

clones	NEXS-864	[2M and above Journey] - Director/Sh...	To Do
--------	----------	---	-------

Epic Link: CNY LoC - FundPark & CN Trustee

Description

As the Data Processing Unit (DPU), I would like to capture the contact information of the spouses of Legal representative/ >=25% UBOs when the user apply for a loan limit>CNY1.5M

So that send the data to the Lender for approval of the loan request

Pre-Condition:

1. The company has started a new loan application for an amount >= CNY1.5M
2. The user has submitted Business Document Upload Page
3. The Legal representative/ >=25% UBOs List has been retrieved from HKCR and displayed via D&B in Personal Information Page
4. No Spouse Information from Directors has to be filled

Acceptance Criteria (AC):

AC1 Display Spouse Information

Given the user is landed on the Connected parties information Page

When the user view each of the Legal representative/ >=25% UBOs

Then the user should see a question of <Please confirm your martial status?> asking for each of the Legal representative/ >=25% UBO using radio button for Yes and No

And the radio button is default to 'Yes'

Then the user will see the following fields in Spouse Information section requesting for input: <ID document type>, <Date of Birth>, <Nationality (Country/Region)>, <Mobile number>, <Email address>

AC2 ID Document Type

Given the user is requested to choose <ID Document Type> for the spouses of each Legal representative / >=25% UBO

And the field is mandatory

When the user view <ID document type> area

Then the user should see 2 options of <PRC Resident Identity Card> or <Mainland Travel Permit for Hong Kong and Macau Residents>

AC3 Nationality (Country/Region)

Given the user is requested to select the Nationality (Country/Region) for the spouses of each Legal representative/ >=25% UBO

When the user click on the dropdown list for Nationality (Country/Region)

Then the user should see the dropdown list options divided into two sections:

Section Headers

Contents

Common countries/regions Includes China, Hong Kong, Macau, Taiwan, United States of America, United Kingdom

Other countries/regions Includes an alphabetical list (A-Z) of all other options

AC4 Nationality Prefill for PRC Resident

Given the user select <PRC Resident Identity Card>

When the user is on the <ID document type> area of the spouse of each Legal representative/ >=25% UBO

Then the <Nationality (Country/Region)> field of the spouse of the Legal representative/ >=25% UBOs is automatically prefilled with "China"

AC5 Nationality No Prefill for Travel Permit

Given the user select <Mainland Travel Permit for Hong Kong and Macau Residents>

When the user is on the <ID document type> area of the spouse of each Legal representative/ >=25% UBO

The the <Nationality (Country/Region)> field of the spouse of the Legal representative/ >=25% UBOs must not be prefilled and remain blank

AC6 Date of Birth

Given the user is requested to select the Date of birth for the spouse of each Legal representative/ >=25% UBO

And the field is mandatory

When the user click on the calendar icon

Then the user should see the feature date is blocked

And the user should be able to select a date that is not in the future

AC7 Mobile number

Given the user is requested to input Mobile number for the spouse of each Legal representative/ >=25% UBO

And the field is mandatory

When the user view the Mobile field

Then the field should display two separate inputs: one for the Country Code and one for the Mobile Number

And the Country Code is default to +86

AC7a Country Code

Given the user is on Connected parties information Page

And the user view <Mobile number> field for the spouse of each Legal representative/ >=25% UBO

When the user click on the dropdown list for the Country Code
Then the user should only see +86 and +852 two options
And the Country Code is is automatically prefilled with “+86”

AC7b Mobile Number

Given the user select a Country Code
When the user input the Mobile Number in the designated area
Then the Mobile Number should accept 4-15 digits with no white spaces

AC8 Validate Mobile Number Format

Given the user select a Country Code and input Mobile Number
When the Mobile Number does not conform to the expected format (e.g., too short or contains letters)
Then the user should receive an error message: "Please enter a valid mobile number."

AC9 Check for Duplicate Mobile Number

Given the user input Mobile Number
When the user input duplicate Mobile Number
Then the user should receive an error message: "This mobile number is duplicated with others."

AC10 Email Address

Given the user is requested to input Email Address for the spouse of each Legal representative/ >=25% UBO
And the field is mandatory
When the user enter an email address in the designated area
Then the field should accept standard email formats, including alphanumeric characters, “@”, and domain names

AC11 Validate Email Address

Given the user input Email Address
When the Email Address does not conform to a valid email format (e.g., missing “@” symbol or domain extension)
Then the user should receive an error message: "Please enter a valid email address."

AC12 Check for Duplicate Email Address

Given the user input Email Address

When the user input duplicate Email Address

Then the user should receive an error message: "This email address is duplicated with others."

AC13 Input Instructions

Given the user is on Mobile Number and Email Address area

When the user review the instructions

Then the user should see message <The signing links will be sent to this number> under Mobile Number

And the user should see message <The signing request will be sent to this email address> under Email Address

AC14 Residential Address Show

Given ID Document is required for the spouse of each Legal representative/ $\geq 25\%$ UBO

When <Mainland Travel Permit for Hong Kong and Macau Residents> is selected

Then the Residential Address will be displayed and mandatory

Data Type	Format	Field Length
Country/Region	Country (Single) - refer to Nationality list	N/A
Address Line 1	Free Text	100
Address Line 2 (Optional)	Free Text	100
City (Optional)	Free Text	50
Postal Code (Optional)	Free Text	20

AC15 Residential Address Hide

Given ID Document is required for the spouse of each Legal representative/ $\geq 25\%$ UBO

When <PRC Resident Identify Card> is selected

Then the Residential Address will not be displayed

AC16 Submitting W/O Residential Address

Given the Residential Address is mandatory upon <Mainland Travel Permit for Hong Kong and Macau Residents> is selected

When the user attempt to submit the page

Then the user receive an error message indicating that <This field can't be left blank>

And the empty box will be highlighted

And the user receive <the section is not yet completed> marked for corresponding Legal representative/ >=25% UBOs at the top of page with a hyperlink

And the user can click on the hyperlink to go directly to that specific section

AC17 Mandatory Field Checking

Given the user is yet to input any of the Mandatory Fields for the spouse of each Legal representative/ >=25% UBO, e.g. <ID document type>, <Date of Birth>, <Nationality (Country/Region)>, <Mobile number>, <Email address>

When the user click <Next> button on Connected parties information Page

Then the user receive an error message indicating that <This field can't be left blank>

And the empty box will be highlighted

And the user receive <the section is not yet completed> marked for corresponding Legal representative/ >=25% UBOs at the top of page with a hyperlink

And the user can click on the hyperlink to go directly to that specific section

Key Notes:

1. All information should be sent to the lender, except for the Date of Birth, which is only needed for checking sanctions.

Connected parties information

The names of all legal representative, shareholders (with equity stakes ≥25%) and directors have been pre-filled based on retrieved data. Please review for accuracy and provide further detail as required.

Description

As the Data Processing Unit (DPU), I would like to collect the ID of the spouses of Legal representative / >=25% UBOs when the user received an underwritten limit >¥1.5M and want to unlock the additional limit

So that send the additional documents to the Lender for approval of the loan request

Pre-Condition:

1. The user has submitted application data within $\leq \text{¥}1.5\text{M}$ to the Lender for credit assessment and KYC
2. The user has received an underwritten limit $> \text{¥}1.5\text{M}$ from the lender

Acceptance Criteria (AC):

AC1 Spouse Identification

Given the user is landed on Connected parties information Page

When the user view each of the Legal representative / $\geq 25\%$ UBOs

Then the user should see a question of <Please confirm your marital status?> asking for each of the Legal representative/ $\geq 25\%$ UBOs using radio button for "**Married**" and "**Single**"

When the user select "**Married**"

And the user should be requested for uploads of ID of the spouses of each Legal representative/ $\geq 25\%$ UBO

And the user should see 3 options of <PRC Resident Identify Card> and <Mainland Travel Permit for Hong Kong and Macau Residents> <Passport> are presented, default to the option of <PRC Resident Identify Card>

And the user should see two upload areas requesting <ID document front side> and <ID document back side>

And the user should see a message: "Please upload 1 document in JPG, PNG, JPEG or BMP format under 10MB."

And the upload areas should visually indicate that the file can be either drag-and-drop for upload, or click the upload button

And the upload area should visually indicate that support 1 document

<<**If** the user selects "**Single**">>

And the user will not be requested for uploads of ID of the spouses of each Legal representative/ $\geq 25\%$ UBO

AC2 Upload PRC Resident Identity Card

Given 3 options of <PRC Resident Identify Card> and <Mainland Travel Permit for Hong Kong and Macau Residents><Passport> are presented and support single selection only for the spouse of each Legal representative/ $\geq 25\%$ UBO

When the user select the default option to upload a <PRC Resident Identify Card>

Then the user should be instructed to upload <ID document front side> and <ID document back side>

AC3 Upload Mainland Travel Permit for Hong Kong and Macau Resident

Given 3 options of <PRC Resident Identify Card> and <Mainland Travel Permit for Hong Kong and Macau Residents> <Passport> are presented and support single selection only for the spouse of each Legal representative/ >=25% UBO

When the user select the option to upload a <Mainland Travel Permit for Hong Kong and Macau Residents>

Then the user should be instructed to upload <ID document front side> and <ID document back side>

AC4 Upload Passport

Given 3 options of <PRC Resident Identify Card> and <Mainland Travel Permit for Hong Kong and Macau Residents> <Passport> are presented and support single selection only for the spouse of each Legal representative/ >=25% UBO

When the user select the option to upload a <Passport>

Then the user should be instructed to upload <Passport Photo Page>

AC5 Upload Personal Credit Report (Optional)

Given the user expand each Legal representative/ >=25% UBO's Spouse Information section

When the user see the <Personal credit report> requesting in the upload area, along with instructions: "Please provide a credit report from your primary residence"

Then the user should see a message: "Please upload 1 document JPG, PNG, JPEG, BMP, or PDF format under 10MB."

And the upload area should visually indicate that the file can be either drag-and-drop for upload, or click the upload button

And the upload area should visually indicate that support up to 1 document

AC6a Upload one file for ID Document

Given the user click the upload button

When the user select one file for ID document front side/back side

Then the user should be able to successfully upload it to the platform

AC6b Upload multiple files for ID Document

Given the user click the upload button

When the user select multiple files for ID document front side/back side

Then the user should see a message indicating one file is allowed for uploads

AC7a Upload multiple files (<=10) for Personal Credit Report

Given the user click the upload button

When the user select multiple files (<=10) for Personal Credit Report/Property and Vehicle Ownership Proof

Then the user should be able to successfully upload them to the platform

AC7b Upload multiple files (>10) for Personal Credit Report

Given the user click the upload button

When the user select multiple files (>10) for Personal Credit Report/Property and Vehicle Ownership Proof

Then the user should see a message indicating a maximum of 10 files can be uploaded

AC8a Drag-and-Drop one file for ID Document

Given the user is on the upload area

When the user drag a file over the upload area/drop area for ID document front side/ back side

Then the user should be able to successfully upload it to the platform

AC8b Drag-and-Drop multiple files for ID Document

Given the user is on the upload area

When the user drag multiple files over the upload area/drop area for ID document front side/ back side

Then the user should see a message indicating one file is allowed for uploads

AC9a Drag-and-Drop multiple files (<=10) for Personal Credit Report

Given the user is on the upload area

When the user drag multiple file over the upload area/drop area for Personal Credit Report

Then the user should be able to successfully upload them to the platform

AC9b Drag-and-Drop multiple files (>10) for Personal Credit Report

Given the user is on the upload area

When the user drag multiple file over the upload area/drop area for Personal Credit Report

Then the user should see a message indicating a maximum of 10 files can be uploaded

AC10a Supported File Format for ID Document

Given the user upload a file

When the user open the file selection window

Then only files in the supported format (jpg, png, jpeg, bmp) should be visible in the selection window

And the user upload a file in one of the supported formats

And the file can be uploaded successfully

AC10b Unsupported File Format for ID Document

Given the user upload a file

When the file is NOT in the supported format (jpg, png, jpeg, bmp)

Then the user should see a message indicating the file uploaded is in unsupported format

AC11a Supported File Format for Personal Credit Report

Given the user upload a file

When the user open the file selection window

Then only files in the supported format (jpg, png, jpeg, bmp, pdf) should be visible in the selection window

And the user upload a file in one of the supported formats

And the file can be uploaded successfully

AC11b Unsupported File Format for Personal Credit Report

Given the user upload a file

When the file is NOT in the supported format (jpg, png, jpeg, bmp, pdf)

Then the user should see a message indicating the file uploaded is in unsupported format

AC12 Accepted File Size

Given the user upload a file of

When the file size is in the given size ($\leq 10\text{MB}$)

Then the file can be uploaded successfully

AC13 File Size exceeds Limit

Given the user upload a file

When the file size is not in the given size ($> 10\text{MB}$)

Then the user should see a message indicating the file uploaded exceeds the 10MB size limit

AC14 Re-upload

Given the user request for re-upload

When the user click on <Remove> button

Then the upload area should then be presented to the user

And the user upload the new file

And the user should be able to see the existing file is replaced with a new one

AC15 View Uploaded File

Given the user upload or re-upload a file

When the user click on <View> button

Then the user should be able to view the uploaded file

AC16 Submitting W/O <The front of identify card>

Given the user yet to upload <The front of identify card> for any of Spouses of Legal representative / >=25% UBOs

Then the user receive an error message indicating that <This field can't be left blank>

And the empty box will be highlighted

And the user receive <the section is not yet completed> marked for corresponding Legal representative / >=25% UBOs at the top of page with a hyperlink

And the user can click on the hyperlink to go directly to that specific section

AC17 Submitting W/O <The back of identify card>

Given the user yet to upload <The back of identify card> for any of Spouses of Legal representative / >=25% UBOs

When the user click the <Next> button to submit the page

And the empty box will be highlighted

And the user receive <the section is not yet completed> marked for corresponding Legal representative / >=25% UBOs at the top of page with a hyperlink

And the user can click on the hyperlink to go directly to that specific section

AC18 Submitting W/O <Passport Photo Page>

Given the user yet to upload <Passport Photo Page> for any of Spouses of Legal representative / >=25% UBOs

When the user click the <Next> button to submit the page

And the empty box will be highlighted

And the user receive <the section is not yet completed> marked for corresponding Legal representative / >=25% UBOs at the top of page with a hyperlink
And the user can click on the hyperlink to go directly to that specific section

~~And~~ the loan application journey tier will be refreshed to follow the 3PL offer's tier

Scenario 4: Offer Check – 3P ID Manually Created – Multi-Shop (Existing feature)

Given the 3P Offer ID returned is manually created by HSBC Express Finance

When the 3P Offer ID is created for Multi-Shop Journey

Then the current tab will be refreshed to show 3P offer authorization success page

And the user can continue multi-shop application in shop management page

And the 3P Offer ID will be linked to the existing SP ID in their workflow

Scenario 5: Offer Check – 3P ID Manually Created – HSBC Application Journey (Existing feature : Offline event)

Given the 3P Offer ID returned is manually created by HSBC Express Finance

When the 3P Offer ID is created for HSBC HK's USD LoC journey

Then the current tab will be refreshed to show 3P offer authorization success page

And the user will continue the loan application for HSBC HK's USD LoC journey

Scenario 6: Offer Check – 3P ID Manually Created – FP Application Journey (Existing feature: offline event)

Given the 3P Offer ID returned is manually created by ** Express Finance

When the 3P Offer ID is created for FP's USD LoC journey

~~Then the current tab will be refreshed to show 3P offer authorization success page~~
~~And the user will continue the loan application for FP's USD LoC journey~~

~~(Existing feature: CNY LoC offline event – manual created – 3PL authorised page) – No login session~~

~~**Scenario 7: Offer Check – 3P ID Manually Created – CN LoC Offline Journey – No Login Session**~~ (Existing feature)

~~**Given** the 3P Offer ID returned is manually created by HSBC Express Finance~~

~~**When** the 3P Offer ID is created for CNY LoC Offline Journey~~

~~**Then** user will be asked to login on to HSBC Express Finance~~

~~**And** user will be brought to Business Information Page for CNY LoC after login~~

~~(Existing feature: CNY LoC offline event – manual created – 3PL authorised page) – login session~~

~~**Scenario 8: Offer Check – 3P ID Manually Created – CN LoC Offline Journey – Active Login Session**~~

~~**Given** the 3P Offer ID returned is manually created by HSBC Express Finance~~

~~**When** the 3P Offer ID is created for CNY LoC Offline Journey~~

~~**Then** the current tab will show 3PL Authorization Complete~~

~~**And** the user's original tab will refresh to show Business Information Page~~

~~**Scenario 9: 3P Offer Check – 3P ID Manually Created – Other BOSS Manual Offer Creation**~~

~~**Given** the 3P Offer ID returned is manually created by HSBC Express Finance~~

~~**When** the 3P Offer ID is created from BOSS not for multi-shop or offline event journey~~

~~**Then** product selection page is shown if there is no existing login session~~

~~**And** offer landing page is shown if there is an existing login session and return to continue their application~~

Epic Link: CNY LoC - FundPark & CN Trustee

Description

As an CNY LoC Applicant, I would like to provide my authorization for my shops SP API data
So that I can provide my Amazon data for credit underwriting

Pre-Condition:

1. User started application journey on Express Finance without 3PL offer ID
2. User has signed in on Express Finance
3. User has selected Apply Now on CNY Offer Landing Page

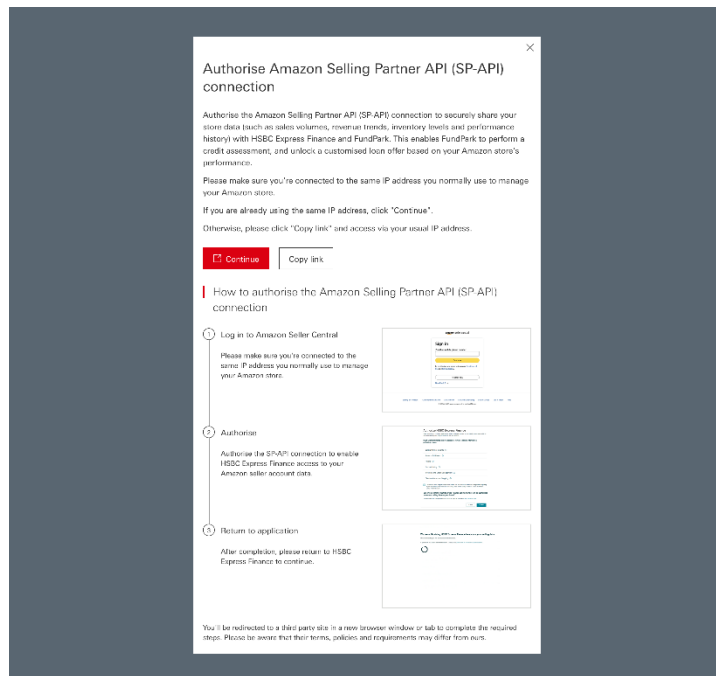

Acceptance Criteria:**Scenario 1: SP API Authorization Modal**

Given that the user started application journey with no AMZ 3PL Offer ID

When the user selects the apply now button on CNY Offer Landing Page

Then the SP API modal will be displayed for the user to proceed SP API authorization

And the SP API modal will be the same SP API modal as MVP1

Scenario 2a: SPID Not Used in Other Loan Application - US Shop

Given the SPID returned from AMZ after SP authorization does not have other loan application

When the SPID belongs to a shop that operates in the US

Then the DPU will call the create offer API for the SPID

And the create offer API will note that the manual offer is created for ¥1.5M - ¥10M CNY LoC tier

Scenario 2b: SPID Not Used in Other Loan Application - Non-US Shop

Given the SPID returned from AMZ after SP authorization does not have other loan application

When the SPID belongs to a shop that does not operate in the US
Then the user will proceed to the business information page per NEXS-1143
And the application will proceed without need for SPID for this shop

Scenario 3a: SPID Used in Other Loan Application by another user - No PSP

Given a shop has been used by another application by another user

When the user provide SP authorisation

Then the user will see <Unable to Proceed Page>

Scenario 3b : SPID Used in Other Loan Application by the same user - No PSP & No e-Signed

Given a shop has been used by another application by the same user

When the other application has not yet completed PSP verification, and has not yet completed eSign

Then the user will be directed to the Business Information page for CNY LoC per NEXS-1143

Scenario 4: SPID Used in Other Loan Application by the same user - PSP Complete

Given a shop has been used by multiple applications by the same user

And one of those applications has already completed PSP verification

When user select an application that has not yet completed PSP verification

Then the user will be informed that they already have an application, along with a CTA button to continue that application

HSBC Express Finance Data Services Limited, a non-banking subsidiary of HSBC, operates HSBC Express Finance and provides services related to the technology platform. HSBC Express Finance is not a lender.

© Copyright. HSBC Express Finance Data Services Limited 2025. All rights reserved.

Scenario 4: SPID Used in Other Loan Application – No PSP

Given the SPID returned from AMZ after SP authorization has been used for another loan application

When the other loan application has not completed PSP verification

Then the DPU will call the create offer API for the SPID

And the create offer API will indicate that the manual offer is created CNY LoC tier offline journey

Scenario 4: SPID Used in Other Loan Application – PSP Complete **

Given the SPID returned from AMZ after SP authorization has been used for another loan application

When the other loan application has completed PSP verification

Then the user will not be able to proceed application with the provided SPID

And the user will see an error message on the Offer Landing Page with the following message:

Title: The shop you provided has been used in another loan application

Sub-Title: You may choose to authorize another shop for assessment

CTA: Proceed with another shop

And selecting the CTA button will open the SP API modal again for the user to authorize another shop

Scenario 5 - Create Offer Successful

Given the Create Offer API has been called for CNY LoC offline event/media journey scenario with indicator

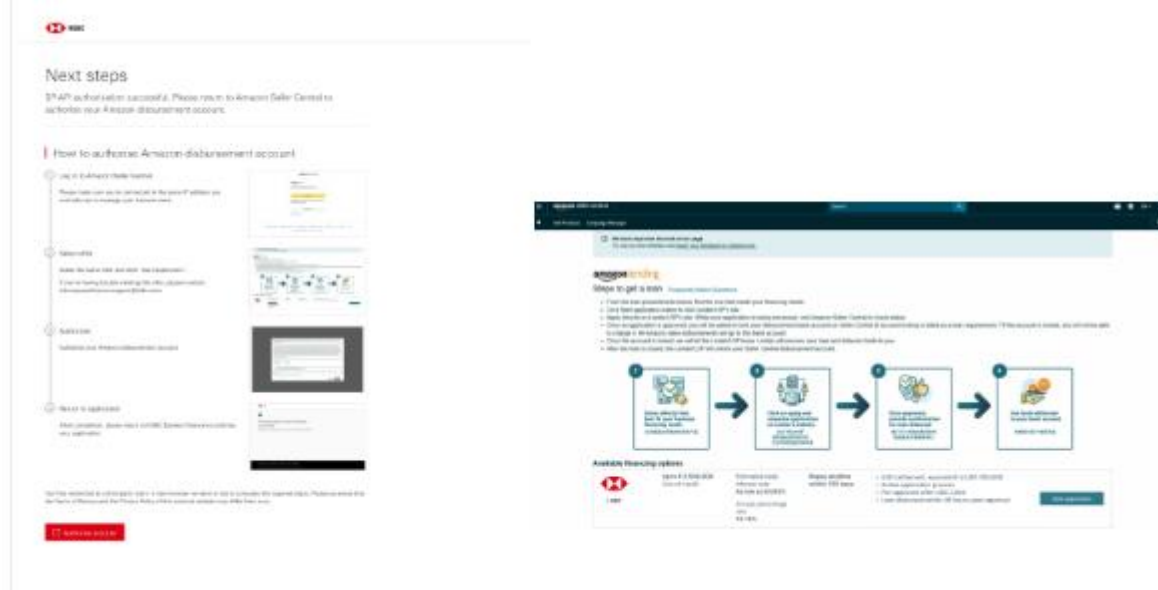

When the Amazon returns the Offer Created Successful status

Then the 3PL ID returned from AMZ will be labeled to show the offer created is for CNY LoC Offline Journey

And the 3PL ID returned will be linked to the user's USER ID and SP ID in the DPU

And the SP authorization success page will be refreshed to show the 3PL authorization page

And selecting the "Authorize Account" button will redirect the user to Amazon Seller Central's Lending Page

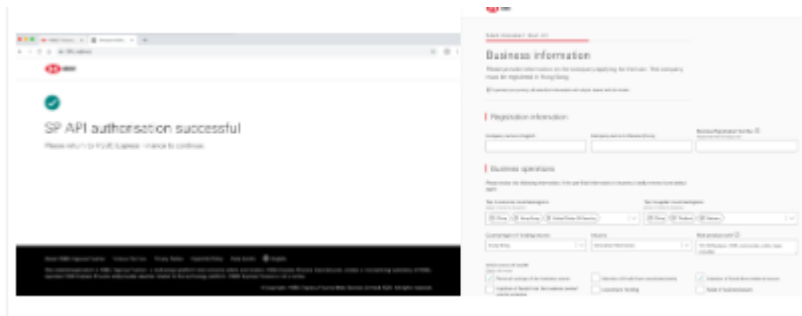

Scenario 6 - Manual Offer Creation Failed - HSBC 3PL Offer Already Exist

Given the Create Offer API has been called for CNY LoC offline journey scenario

When the Amazon returns a failed status with "Offer already exists for the seller for the same partner product combination"

Then the SP authorization success page will be refreshed to show the 3PL authorization page

And selecting the "Authorize Account" button will redirect the user to Amazon Seller Central's Lending Page

Scenario 8 - Manual Offer Creation Failed - Other Fail Reasons

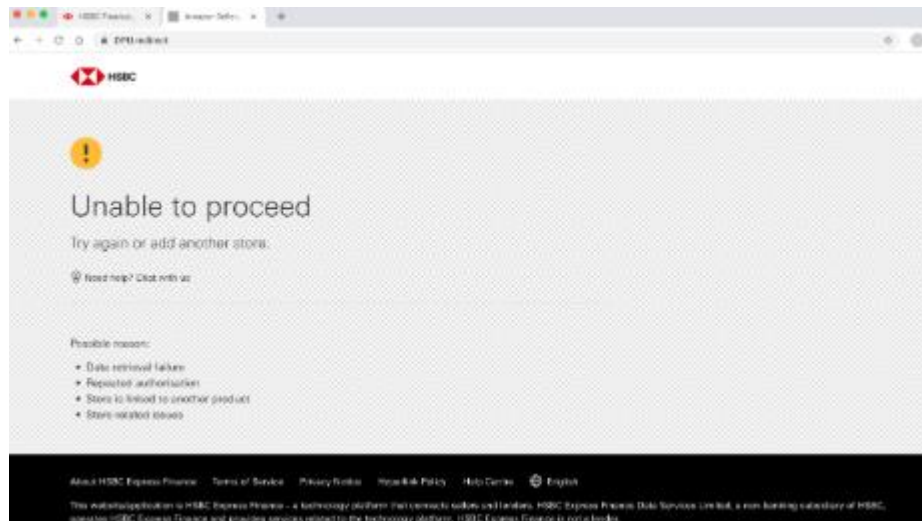

Given the Create Offer API has been called for CNY LoC offline journey scenario

When the Amazon returns a failed status other than the above scenario 6 and scenario 7

Then the SP authorization success page will be refreshed to let user know the shop cannot be used for this application

And the page will instruct the user to return to previous tab to authorize another Shop

And the previous tab will continue to show the authorize SP API modal

Scenario 9: User Dropped Out After SP API Authorization

Given the user has successfully provided SP API consent for a US Shop in the CNY Offline Journey

And Create Offer API is successfully created for Offline Event/Media Journey

OR Create Offer API failed due to existing HSBC 3PL Offer ID for Seller

When the user login again to Express Finance without completing 3PL authorization

Then the user will see a "Pending 3PL authorization" status on the offer landing page

And clicking the Copy Link button will copy the Amazon Lending Offer page URL for the user

Description

As an CNY LoC Applicant, I would like to provide my authorization for my shops SP API data
So that I can provide my Amazon data for credit underwriting

Pre-Condition:

1. User started application journey from Amazon with CNY 3PL Offer ID in URL
2. User has signed in on Express Finance
3. User has selected Apply Now on CNY Offer Landing Page

Acceptance Criteria:

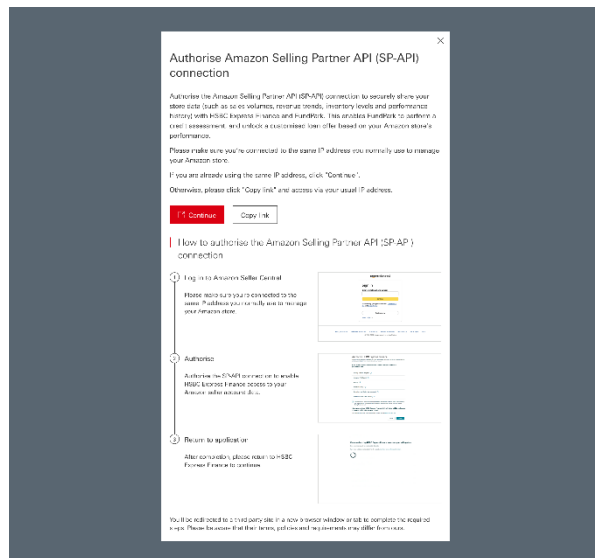

Scenario 1: SP API Authorization Modal (Existing logic)

Given that the user started application journey with AMZ 3PL Offer ID

When the user selects the apply now button on CNY Offer Landing Page

Then the SP API modal will be displayed for the user to proceed SP API authorization

And the SP API modal will be the same SP API modal as MVP1

Scenario 2a: SPID Not Used in Other Loan Application - US Shop (Existing logic)

Given that the user has successfully provided SP API authorization

When AMZ returns SPID that has not been used in other loan application on the DPU

And the SPID has a US Shop

Then the user will be directed to the Business Information page for CNY LoC per NEXS-1143

Scenario 2b: SPID Not Used in Other Loan Application - Non-US Shop (Existing logic)

Given that the user has successfully provided SP API authorization

When AMZ returns SPID that has not been used in other loan application on the DPU

And the SPID does not have a US Shop

Then the user will see <Unable to Proceed Page>

Scenario 3a: SPID Used in Other Loan Application by another user - No PSP

Given a shop has been used by another application by another user

~~AMZ returns SPID that is already used in another application on the DPU after SP authorization~~

~~**When** the other application has not yet completed PSP verification for the existing application~~

~~**Then** the user will be directed to the Business Information page for CNY LoC per NEXS-1143~~

When the user provide SP authorisation

Then the user will see <Unable to Proceed Page>

***Scenario 3b: SPID Used in Other Loan Application by the same user - No PSP & No e-Signed**

Given a shop has been used by another application by the same user

When the other application has not yet completed PSP verification, and has not yet completed eSign

Then the user will be directed to the Business Information page for CNY LoC per NEXS-1143

Scenario 4: SPID Used in Other Loan Application **by the same user** - PSP Complete

Given a shop has been used by multiple applications by the same user

And one of those applications has already completed PSP verification

When user select an application that has not yet completed PSP verification

Then the user will be informed that they already have an application, along with a CTA button to continue that application

~~AMZ returns SPID that is already used in another application on the DPU after SP authorization~~

~~**When** the other application has already completed PSP verification~~

~~**Then** the user will not be able to proceed application with the provided SPID~~

~~**And** the user will see an error message on the Offer Landing Page with the following message:~~

~~**Title:** The shop you provided has been used in another loan application~~

~~**Sub-Title:** You may choose to authorize another shop for assessment~~

~~**CTA:** Proceed with another shop~~

~~**And** selecting the CTA button will open the SP API modal again for the user to authorize another shop~~

Issue Links: **Cloners**

clones	NEXS-1045	[Application Abandon] - 1st Applicati...	Done
--------	----------------------	--	------

Epic Link: Application Abandon/Reject

Description

As the Data Processing Unit (DPU), I would like to update the logic for Application Abandon

So that make sure we follow the contract requirement set by AMZ

Pre-Condition:

1. *The to be updated logic will be applied for application that has submitted to lender, and status has been changed to abandon*

Acceptance Criteria (AC):

AC1 - Application status is changed to abandon with activate limit for this lender

Given that in ~~NEXS-1045~~ scenario, DPU Application status will be changed as abandon

When system changed the status to Abandon

Then send notification to lender to notify the application is now abandoned, the new approved offer and in progress application will be cancelled

AC2 - Application status is changed to abandon and no activate limit for this lender

Given that in ~~NEXS-1045~~ scenario, DPU Application status will be changed as abandon

When system changed the status to Abandon

Then send notification to lender to notify the application is now abandoned, the new approved offer and in progress application will be cancelled

Then Lender cannot extract data and do any webhook notification on the seller

Then if Lender got PSP authorization, Lender need to remove the PSP authorization

AC3 - User have failed to signed the additional limit document

Given that User have activated limit, and failed to e-sign document

When current date exceed the offer expiry time

Then change DPU Application as abandon

Then change DPU Credit Approval as abandon

Then notice FP of this application abandon

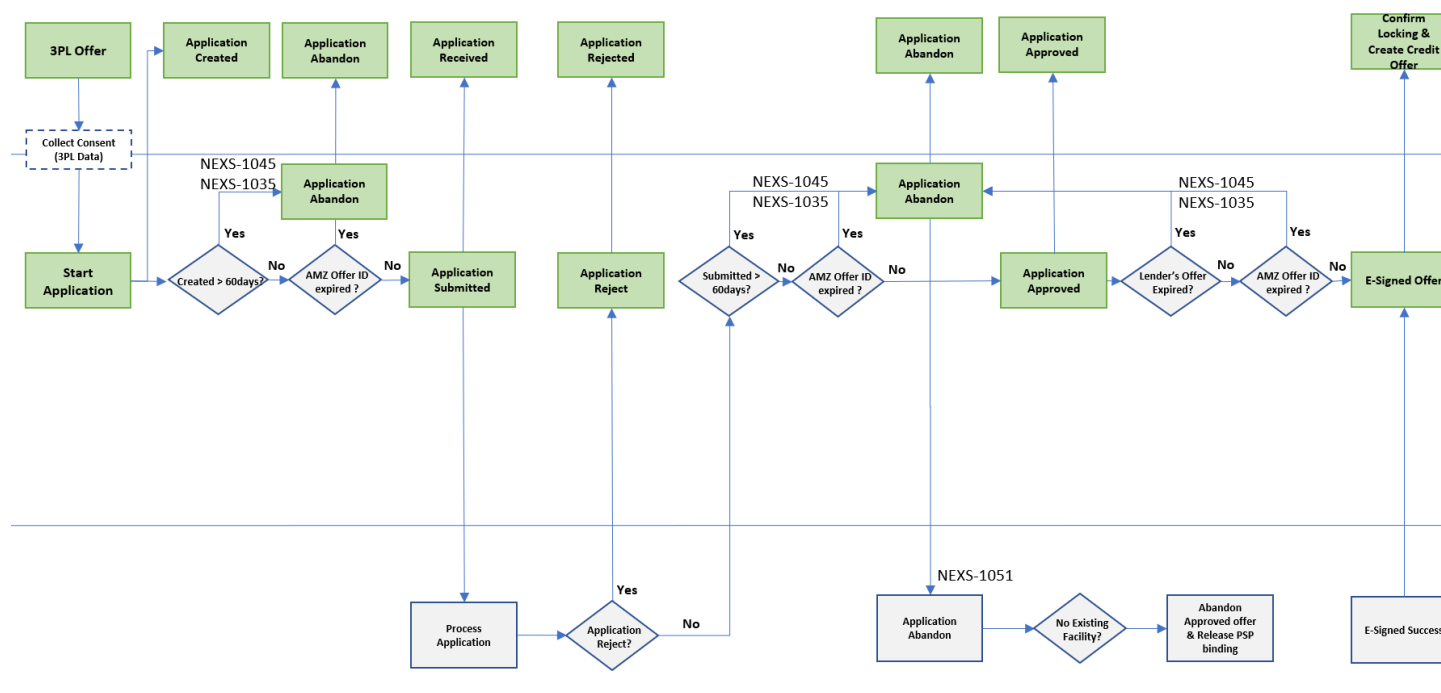

AC4 - User have failed to signed the additional limit document

Given that User have no activated limit and have submitted application to FP

When AMZ Offer ID expired

Then change DPU Application as abandon

Then notice FP abandon this application
